DETAILED ACTION

The submission of amendment filed on 7/22/2005 is acknowledged. At this point claims 1-12 have been amended, and are at issue in the instant application.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James A. Collins **Rej. No. 43,557** on 8/18/2005.

Claim 1, line 9, delete "in a plan view".

Claim 1, line 15, delete "capable of being" and insert -are-.

Claim 1, line 17, delete "capable of being" and insert -is-.

Allowable Subject Matter

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance:

Referring to Claim 1 the prior art of record fails to show a backlight device including a light guide plate with emitting surface having a plurality of wedge-shaped grooves in stripes in a plan view and a light diffusing micro-protrusions between the grooves, wherein a light incident

Art Unit: 2875

on the light diffusion surface forms a first transmitting light component diffusing and emitting from the emitting surface, as an illuminating light, and the light incident on the wedge-shaped grooved is splitting into a second light component diffusing and emitting from the emitting surface, as an illuminating light and a reflected light component being re-introduced into the wedge-shaped grooves to be emitted as an illuminating light.

Claims 2-12 are allowed as claims depended on claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
